Yes

Highest level
of education

Bachelor's

EDUARDO LULO GARCIA

Front-End Developer | React | JavaScript (ES6+) | TypeScript | Tailwind CSS | Supabase (PostgreSQL backend)

Experience

Front-End Developer

Dec 2025 – Present

Huellas Veterinary Clinic – Caracas (Remote)

- Developing a Veterinary Clinic Management System covering owners, pets, medical records, staff, billing, and inventory management.
- Implemented medical history tracking, including visits, diagnoses, treatments, vaccinations, and appointment scheduling.
- Built billing and invoicing features, managing client accounts and financial data.
- Architected a scalable frontend using React, TypeScript, and Tailwind CSS, following a feature-based structure for maintainability.
- Integrated with Supabase (PostgreSQL) to manage relational data and API communication.
- Applied type-safe development, modular components, and structured state management to ensure scalability and clean code practices.

Maintenance Engineer

Mar 2024 – Jan 2026

The Jordon Group – London, UK

- Delivered technical service and troubleshooting for refrigeration systems.
- Developed strong analytical and problem-solving abilities transferable to debugging and resolving issues in web projects.
- Collaborated with teams to solve technical problems under pressure.

Front of House Staff

Nov 2021 – Apr 2023

Côte Restaurants – London, UK

- Strengthened communication, teamwork, and customer service skills in a fast-paced environment.
- Managed priorities and resolved customer issues effectively — valuable for team-based development work.

Maintenance Coordinator

Feb 2019 – Sep 2020

Central Madeirense C.A – Caracas, Venezuela

- Led a technical team, managing maintenance operations and service scheduling.
- Developed leadership, organizational, and process improvement skills relevant to collaborative web projects.

Mechanical Engineering Intern

Jul 2018 – Dec 2018

Empresas Polar – Caracas, Venezuela

- Worked on data analysis and asset management improvements using enterprise software (SAP PM).
- Gained experience with technical documentation, reporting, and optimization processes.

Education

Bachelor of Engineering – Mechanical Engineering

2011 – 2018

About Me

Front-End Developer specialised in building modern, responsive and user-focused interfaces. I work with React, TypeScript, JavaScript, HTML, CSS and Tailwind CSS, with solid experience using Supabase (PostgreSQL database).

I hold a degree in Mechanical Engineering and, for over a year and a half, I have been fully committed to transitioning into web development, applying a disciplined, analytical and problem-solving mindset to my technical growth.

I am passionate about turning ideas into clean, functional products and continuously improving through hands-on projects. I am eager to contribute, learn quickly and grow within a professional development team.

Skills

- React
- TypeScript
- JavaScript (ES6+)
- Tailwind CSS
- HTML5
- CSS3
- REST API Integration
- State Management
- Responsive Design
- Git
