EDUARDO JAVIER LULO

Full-Stack Developer | React | Next.js | JavaScript (ES6+) |
Node.js | TypeScript | Tailwind CSS | PostgreSQL | Supabase

Experience

Full-Stack Developer

Dec 2025 - Present

Huellas Veterinary Clinic - Caracas (Remote)

- Built EchoSoft, a production web application used by veterinary sonographers to manage patients, ultrasound consultations, clinical reporting and medical image storage.
- Delivered a live SaaS product used by paying veterinary clients, generating recurring revenue and supporting real-world clinical workflows.
- Engineered full-stack features including report generation, PDF exports, cloud image management and relational data handling using React, Next.js, TypeScript, Tailwind CSS and Supabase (PostgreSQL).
- Designed scalable, maintainable architecture using reusable components, custom hooks, structured state management and type-safe development practices.
- Also contributed to a Veterinary Clinic Management System covering medical records, scheduling, billing and inventory management.

Maintenance Engineer

Mar 2024 - Jan 2026

The Jordon Group - London, UK

- Delivered technical service and troubleshooting for refrigeration systems.
- Developed strong analytical and problem-solving abilities transferable to debugging and resolving issues in web projects.
- Collaborated with teams to solve technical problems under pressure.

Front of House Staff

Nov 2021 - Apr 2023

Côte Restaurants - London, UK

- Strengthened communication, teamwork, and customer service skills in a fast-paced environment.
- Managed priorities and resolved customer issues effectively — valuable for team-based development work.

Maintenance Coordinator

Feb 2019 - Sep 2020

Central Madeirense C.A - Caracas, Venezuela

- Led a technical team, managing maintenance operations and service scheduling.
- Developed leadership, organizational, and process improvement skills relevant to collaborative web projects.

Mechanical Engineering Intern

Jul 2018 - Dec 2018

Empresas Polar - Caracas, Venezuela

- Worked on data analysis and asset management improvements using enterprise software (SAP PM).
- Gained experience with technical documentation, reporting, and optimization processes.

Education

Bachelor of Engineering - Mechanical Engineering

2011 - 2018

Simon Bolivar University

About Me

Full-Stack Developer specialised in building modern, scalable and user-focused web applications using React, Next.js, TypeScript, JavaScript, Node.js, Tailwind CSS, PostgreSQL and Supabase. Currently working full-time developing EchoSoft, a production SaaS platform used by veterinary professionals to manage consultations, clinical reports and medical imaging workflows.

Holding a degree in Mechanical Engineering, I bring a strong analytical and problem-solving mindset to software development, with experience designing clean, maintainable solutions and contributing across the full development lifecycle. Passionate about building practical products, solving real-world problems and contributing to modern engineering teams.

Skills

- React
- Next.js
- TypeScript
- JavaScript (ES6+)
- Node.js
- PostgreSQL
- Tailwind CSS
- Git
- Supabase
- REST API Integration
- Responsive Design
